Portfolio: <https://ajcuddeback.github.io/>

I am a full-stack web developer with many years of problem solving experience. I have a background in management which has taught me how to be an excellent problem solver and natural leader. I have also received my Full-Stack Web Developer Certificate from UCF's Coding Bootcamp where I learned languages such as HTML, CSS, and Javascript. This bootcamp taught me all the coding and collaborative skills I need to become a successful developer in an environment that replicated on the job responsibilities. I am eager to take on future challenges as a developer and create intuitive and user-friendly websites with a quality-driven team!

TECHNICAL SKILLS

Frontend: HTML5, CSS, Javascript, Web API's

PROJECTS

Password Generator | password-generator | <https://ajcuddeback.github.io/password-generator/>
Javascript Development

- User follows a list of prompts and will be given a random secure password
- This project will provide a user with a secure random password they can use for any website based on it's parameters. HTML and CSS was provided through UCF's Coding Bootcamp, Javascript needed to be created from scratch to make the application function
- Tools/Languages: HTML, CSS, Javascript

Coding Quiz | Coding-Quiz | <https://ajcuddeback.github.io/Coding-Quiz/>
Full-Stack Development

- Application tests the users knowledge on basic JavaScript
- When the user clicks on the link, they will be directed to a coding quiz with a catch
- Tools/Languages: HTML, CSS, Javascript, API's

WORK EXPERIENCE

Papa John's Franchise

02/2019 - 02/2020

General Manager

Punta Gorda, FL

- Job Roles include: Strong leadership, money management, strong problem solving skills, and training
- Promoted to a GM in three months time of start date

ASAP Installations

02/2020 - 10/2020

Sheet Pile/Rigger

Mirrimar, FL

- Job Roles include: Strong problem solving skills, ability to work long hours and push through, rigging
- Having the job role of doing sheet pile takes lots of concentration and problem solving skills. A sheet pile laborer must watch the sheet pile as it goes into ground and use problem solving skills to correct the direction it goes into the ground while watching the work area for any hazards.
