Summary: I am a driven full-stack web developer with a background in management which has given me the skills to be an excellent problem solver and natural leader. Looking to bring my knowledge, communication, and technical skills to add value to an organization while focusing on continuous learning and engaging in my community to give back in the field of web development.

Projects

Dev Connect - Social Media Application

Code: https://github.com/ajcuddeback/devconnect

Demo: https://dev-connect-ac.herokuapp.com/

- **Role:** Built a scalable web API to communicate with the front-end of the Events section of the website. Also designed and developed the front-end of dev-connect.
- **Utilized:** Handlebars, CSS, JavaScript, Restful API's, MySQL, bcrypt, Sequelize, express-session, Node.js, Express.js

Explore Outdoors – Finds your next vacation.

Code: https://github.com/ajcuddeback/Explore-Outdoors

Demo: https://ajcuddeback.github.io/Explore-Outdoors/

- **Role**: Used UI/UX Development and animations to create a wireframe with Adobe XD and create CSS animations and svg manipulation. Helped make requests to the Open Weather API to display weather based on the users chosen destination.
- **Utilized**: HTML, CSS, Javascript, API's
